

Draft 2016 Integrated 305(b)/303(d) List - Sounds/Harbors

Reach Name/ID	Reach Location/County	River Basin/ Use	Assessment/ Data Provider	Cause/ Source	Size/Unit	Category/ Priority	Notes
Altamaha Sound	McIntosh County	Altamaha	Assessment Pending		3	3	Arsenic has been found in the tissue of some fish collected from this waterbody. It is currently unknown what fraction of the arsenic in fish tissue is in the more toxic inorganic form. In order to be conservative and protective of human health, fish consumption guidelines have been issued for this water. However, until a study has been completed to determine what fraction of the arsenic is in the inorganic form, the water will remain in Category 3 for 305b/303d purposes.
GAR030701060508	McIntosh	Fishing	1,5,55		Square Miles		
Buttermilk Sound	McIntosh and Glynn Counties	Altamaha	Supporting		3	1	
GAR030701060507	McIntosh, Glynn	Fishing	1,5,55		Square Miles		
Doboy Sound	McIntosh County	Altamaha	Supporting		6	1	
GAR030602040623	McIntosh	Fishing	5		Square Miles		
Ossabaw Sound	Chatham County	Ogeechee	Supporting		16	1	
GAR030602040625	Chatham	Fishing, Recreation	5		Square Miles

Wassaw Sound	Chatham County	Savannah	Assessment Pending		8	3	Arsenic has been found in the tissue of some fish collected from this waterbody. It is currently unknown what fraction of the arsenic in fish tissue is in the more toxic inorganic form. In order to be conservative and protective of human health, fish consumption guidelines have been issued for this water. However, until a study has been completed to determine what fraction of the arsenic is in the inorganic form, the water will remain in Category 3 for 305b/303d purposes. The need for continued fish consumption guidelines and a final 305b/303d assessment decision will be revisited once the study is complete.
GAR030602040624	Chatham	Fishing, Recreation	5,55		Square Miles		
Cumberland Sound	Camden County	St. Marys	Assessment Pending		9	3	
GAR030702030505	Camden	Fishing	1,5		Square Miles		Arsenic has been found in the tissue of some fish collected from this waterbody. It is currently unknown what fraction of the arsenic in fish tissue is in the more toxic inorganic form. In order to be conservative and protective of human health, fish consumption guidelines have been issued for this water. However, until a study has been completed to determine what fraction of the arsenic is in the inorganic form, the water will remain in Category 3 for 305b/303d purposes.
